Canadian Reciprocity. New York, April 14 -At the annual meeting of the Canadian Club last evening Erastus Wiman who was elected president

of the club, made an address in which he referred to the present relations of the United States with Canada. Mr. Wiman thought it was almost impossible to over estimate the importance of occurrences of the next few weeks. He thought that if the object sought by Caanda in her strict enforcement of the exactions of obsolete regulation and denial to American vessels privileges enjoyed by Canadian vessels the world over was the payment by the United States of an award similar to the Halifax award, it ought to be understood once for all that the American people will never grant any such. There is no way to adjust successfully the relations of the two countries, Mr. Wiman thought, but by means of thorough reciprocity between them; such as suggested by the bill before congress offered by Mr. Buster worth of Ohio.

### A New Development.

Indianapolis, April 14.—Something of a sensation developed today in connection with the frauds alleged to have been committed at the last elections. Under a ruling by Judge Gresham the prosecution were forced to transfer the case to the state courts and the grand jury of the criminal court has been taking evidence in the mat ter. Tue jury is drawn to serve six months. It consists of six members and i equally divided politically. Today the Republican members sent a letter to the judge in which they stated that there was ample evidence to warrant the finding of indictments in the election fraud cases, but that such results were prevented by the re-fusal of the other members of the jury to take action. In concluding, the three members asked to be excased from further service on the jury. Judge Irwin on re ceipt of the letter expressed considerable indignation, and said that the facts stated developed something entirely new in crim inal jurisprudence.

She sailed in bal-last and the only freight she carried was specie with which to purchase a cargo bananas. She will be due on return this week. Some months ago the British consul here caused the Gulnare to be detained some days for an error in her papers. The defect was mended and she went about her of locomotives. The vessel was owned by prominent Irish pationalists of this city, and some excitement was caused at the time by the rumor that she was fitted out as a Fenian privateer, and this may have given rise to the scare on the other side,
